March 2024

Branwood School Building Development Plan

Phase One

Phase One of our school building development plan is now complete and we are truly delighted with the results. We now have a purpose built music and Spanish classroom, as well as spaces for individual music and LAMDA lessons. The works have also created much needed additional administration space.

Phase One sets a high standard for the future development of the school, as we strive to provide outstanding facilities which equal our outstanding education.

Working with local architects, Bate and Taylor, the Phase One project was developed and delivered to an extremely high standard. We hope you enjoyed viewing the images and plans on our website as much as we have enjoyed bringing the project to fruition.

We are excited to share this space and would like to invite you all to visit. Please monitor the School Information Letter for further details.

Phase Two

Following on from the Phase One success we are delighted to announce that the Governors and Trustees are committed to Phase Two of the Building Development Plan.

Phase Two will incorporate the full refurbishment of the whole upper school block i.e. Form 3, Form 4, Form 5 and Form 6 as well as all four associated cloakrooms.

This Phase will also be undertaken in association with Bate and Taylor, to ensure that the specification and high standards are carried throughout the school. Each classroom will have a purpose built teaching wall and modern cloakroom facilities and will be finished to the same criteria as Phase One.

Works to improve the energy efficiency of the building, including consideration of the heating and lighting within the classrooms, will be included in this Phase to ensure a modern and comfortable learning environment. Our school Eco credentials will also be enhanced with the inclusion of upgraded energy efficient systems.

It is hoped that Phase Two will be completed during the summer 2024 holiday period, ready for the start of the new academic year. In reality, the timing and completion of this project will be dependent on establishing a timeframe with external contractors for full installation of a 3-phase electricity supply.

Phase Three and Beyond

Active discussions are already underway concerning a proposed Phase Three of the Building Development Plan with designs focusing on updating and modernising the school entrance and reception areas. Further details will be published in a timely manner so watch this space!

I am delighted to confirm that our Governors and Trustees are fully committed to keeping the momentum going and are currently working on a planning application for submission.

Phase Three strives to truly enhance the whole Branwood experience and we can't wait to share our aspirational plans with you.

This is an exciting time for Branwood and we welcome you to join us on our journey.

Kind regards

Mr A Whittell
Headmaster
